1. The SCC is very interested in the new model car known as F8/2 being prepared for the IVA on BfW instructions.
2. Only two firm orders have so far been given by the BfW to German industry. They are:
 - a. Six cars, type F8/2, as the prototypes, to be ready on 14 June; taken over for testing from 15 June to 31 July; returned for modifications 31 July to 15 August; and going into production on 15 August. Effective 15 August production is estimated at ten per day.
 - b. Thirty cars, type Horch "MI". The prototype has already been produced and tested. Ten more are to be ready by 20 October, with a further 10 by 20 November and 10 more on 20 December.
3. [REDACTED] source learned that the field kitchens ordered for the IVA by the BfW are now in full production. The prototype has been shown to the Russian General Makarov in the presence of Chief of Staff Bernhard Bechler of the IVA, and both were most enthusiastic. Makarov stated that this was the finest field kitchen he had ever seen.
